

Online learning

Understanding menopause – for nurses and midwives

Registration

Cost: Free

Scan the QR code to enrol.

This course is designed to help nurses and midwives improve their knowledge and understanding of menopause, including key management principles. Although this course has been designed for nurses and midwives, other health professionals are welcome to participate.

Learning outcomes

At the end of this course, participants will be able to:

- identify the difference between perimenopause, menopause and postmenopause
- describe the role of nurses and midwives in menopause management.

CPD information

Completion of this educational activity entitles eligible participants to claim one CPD hour.
